## **Analysis of Practices on HIV-Sensitive Social Protection Mechanism Contributing to Reducing HIV and TB Vulnerabilities in Indonesia (supported by ILO)**

This study will focus on two levels of analysis; the first will be a study at a national level, in which the Law for National Social Protection System is used as a reference in developing public policies for social protection in Indonesia. At provincial/district level, analysis will be focused in assessing samples of practices of social/health protection. The three provinces/districts considered to have HIV-sensitive social protection systems are Central Java, DI Yogyakarta and West Kalimantan

Role: Project Director

## **Completed Research Support**

Principle Investigator

The Ford Foundation, Family Health International, WHO, UNAIDS, AUSAID

Rapid Assessment and Response on IDU in 9 cities in Indonesia – sponsored by a consortium of Donor Agencies

UNAIDS (November 2005-May 2006).

Experiences of People living with HIV/AIDS with ARV and other services in four major cities

**UNESCO**

**Research: Education sector response to HIV/AIDS, Drugs, and Sexuality in Indonesia**

ARC-AJCU was asked by UNESCO Indonesia to conduct a study on the integration of sexual and reproductive health, HIV and AIDS, and drug abuse issues in junior and senior high schools in 6 cities with a high number HIV/AIDS cases in Indonesia. Results of the study were discussed with international participants in Jakarta.

The final report and recommendations were presented directly to Ministry of National Education officials who are responsible for HIV/AIDS, sexual and reproductive health and drug problems within the education sector.

Role: PI

Contract No. FCO # 16449 (ID#0354.0020)

Oct 2009 – Feb 2010

**Grant from Global fund ATM Round 4, through Family Health International.**

**Research: Sexual Networks and Drug use among Injecting Drug users in 6 provinces.**

ARC - AJCU has been asked by FHI to conduct research in 6 provinces. ARC collaborated with 6 local NGOs to form a team of interviewers to conduct a survey. A preliminary meeting for provincial coordinators was held. The training for interviewers was carried out in 3 cities. Data entry and data analysis was conducted and coordinated by ARC staff. Final Report was published and disseminated to national and local stakeholders (includes: National AIDS Commission, Ministry of Health, Research Institutions, and NGOs).

Involving partners from NGOs is a part of ARC-AJCU to build research capacity to other institution in Indonesia.

Role: Consultant

Contract No. BI-BL/GA006/2009

Nov 2009 – March 2010

**Grant from Levy Strauss Foundation through Burnet Institute.**

**Research: Health Seeking Behavior among Injecting Drug Users in Bekasi**

ARC-AJCU collaborated with Burnet Institute and 2 local NGO in Bekasi, west Java, Indonesia to conduct a qualitative research on Health seeking behavior among IDU in this area. Results from this study were disseminated to stakeholders in local and national level through a national seminar. Seminar participants came from the National AIDS Commission, Research Institutions, NGO networks, international agencies, and professional organizations.

Role: Consultant
